OLD AGE ASSISTANCE DEPARTMENT

State House
Montpelier, Vermont

For the information of your taxpayers the customary annual statement is presented for your town report.

Payments of Old Age Assistance to persons applying from your town amounted to \$2,817.50 during the year January 1, 1940 to December 31, 1940.

The number of recipients in December, 1940 was 16.

The resources of this department and its ability to make payments are determined by the state appropriation which is matched by federal funds.

The administrative expenses of the department during the year was 4%.

The advice and council of local officials and interested people are gratefully acknowledged by this department and its field staff.

Very sincerely yours,

W. ARTHUR SIMPSON,
Director

LENA GOODSPEED,

School Board

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of the Town of Warren:

The enrollment in the Warren Schools has been as follows:

Grades	1	2	3	4	5	6	7	8	Total
Down River	0	0	3	1	1	0	4	0	9
East Warren	1	1	2	0	2	0	2	3	11
Warren P.	7	4	7	7					25
Warren G.					9	10	5	2	26
Total	8	5	12	8	12	10	11	5	71

Our teachers are: Down River, Mary Ketcham; East Warren, Ruth Seabury; Village Primary, Melba Crawley; Village Grammar, Sandrino Beretta.

Nearly all of the schools in this district are serving noon lunches. In some cases just fruits from the Commodity Distribution office in Montpelier are used. In many cases, however, the teacher assisted by mothers, prepare and serve a hot dish every day. This project helps materially in building up the resistance of our children to colds and other diseases which often cause so much loss of school time.

Steady progress in reading is being made throughout the district. This is due to the fact that yearly we are providing more and better reading material, and also to the fact that there is, in general, a keener realization that the ability to read easily and understandingly is truly fundamental to good work in all school subjects.

Music is another subject in which improvement is being made. This is due in part to better equipment but more to the fact that teachers are better trained to handle this subject and are more keenly alive to its value in the school program.

The enrollment in the rural schools of Vermont is grad-

ually decreasing. However, more students are attending high school than ever before. The increase in current expenses in the smaller towns is due almost wholly to increased high school tuition. Sometime the State will give more aid to the smaller towns in order to equalize school taxes.

Spelling tests and Standard Achievement Tests have been given since my last report. Schools will be rated this spring according to a new State Rating Sheet.

The following is a communication from the State Department of Education:

January 24, 1941

TO THE CITIZENS OF WARREN:

The State Department of Education forwarded to your Town Treasurer the sum of \$1,450.00 in state aid for the school year ending June 30, 1940.

The purpose of our system of state aid is to help equalize educational opportunities for our children in all parts of Vermont and to assist schools in reaching and keeping up to the minimum qualifications of good current practice in education.

Preferential purposes for the local expenditure of state aid include rural teachers' salaries, advanced instruction, transportation and supervision, as well as the improvement of school buildings and vocational education.

Very sincerely yours,

RALPH E. NOBLE

Commissioner of Education

In conclusion, I wish to express my sincere appreciation of your interest and cooperation during the past year.

Respectfully submitted,

S. C. HARDING

OLD AGE ASSISTANCE

For the information of your taxpayers, the customary annual statement is presented for your town report.

Payments of Old Age Assistance to persons applying from your town amounted to \$3,263.00 during the year January 1, 1941 to December 31, 1941.

The number of recipients in December, 1941 was 15.

As this program touches every community and many persons, we believe the public should know the following facts:

Expenditures for Old Age Assistance in Vermont amount to over \$1,000,000 a year. All payments are made on a budgetary basis and only after complete investigation by a trained social worker employed under Civil Service regulations. Since the beginning of the program ninety-six cents out of every dollar available

to the Department has been expended for the aged and only four cents used for administration.

The increased cost of living and its effects on the budgets of some 5,600 aged persons currently receiving assistance each month constitutes a serious problem, impossible to solve because it is a financial one. This situation also prevents grants of assistance to new applicants who, in many cases, are quite as needy and deserving as those already receiving assistance. The resources of this Department and its ability to make grants are determined by the State Appropriation, which is matched by Federal funds.

The advice and counsel of local officials and interested persons have been very valuable and are gratefully acknowledged.

Very sincerely yours,

W. ARTHUR SIMPSON,

Director

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Directors and Citizens of the Town of Warren: I herewith present my seventh annual report.

Eight towns and two incorporated villages are included in this district: Bethel, Granville, Hancock, Pittsfield, Rochester, Sherburne, Stockbridge, Warren, Rochester I. D. and Whitcomb High School District. There are twenty-nine schools and forty-four full time teachers.

Our teachers are: Marjorie Brooks, East Warren; Viola Mallory, Down River; Village Primary, Melba Crowley; Village Grammar, Sandrino Beretta.

The enrollment in the schools at the begining of the fall term was as follows:

Grades	1	2	3	4	5	6	7	8	Total
East Warren	2	2	0	3	2	1	1	2	12
Down River	1	0	0	2	1	1	2	3	11
Village Primary	6	6	5	7					24
Village Grammar					6	8	8	4	26
Total	9	8	5	12	9	10	11	9	73

Each year at the close of the schools in June careful inventories of all supplies on hand in the various towns have been taken and the needed supplies for the coming year have been ordered in July. This year supplies were ordered the first of January in order to take advantage of the then prevailing prices. Some articles will be off the market entirely in the near future.

For several years there will be a material advance in the cost of everything we buy. Schools will be no exception. As the proper education of our youth is one of our most necessary defense measures, we should strive to keep our schools not only unimpaired but we should endeavor to improve them as much as possible.

At the East Warren school necessary repairs were made to meet the requirements for a paid worker for hot lunches. The project is being carried on most successfully. Hot

lunches also are being served at the Down River school.

The general progress of the pupils during the year has been satisfactory.

I enjoy working in your schools and appreciate sincerely the loyalty and helpfulness shown by all with whom I have come in contact.

Respectfully submitted,

January 16, 1942

A SUGGESTION TO TAXPAYERS

When you pay your taxes on or before the due dates, you save money for yourself, your fellow taxpayers and the Town.

Unpaid taxes actually result in a higher tax rate. This is especially true of unpaid poll taxes, which include Old Age Assistance and Flood Taxes, which must be paid by the Town, regardless of whether or not every listed taxpayer has paid up.

In other words, a delinquent poll taxpayer actually costs his friends and neighbors money, by forcing their taxes up.

OLD AGE ASSISTANCE DEPARTMENT

For the information of your taxpayers, the customary annual statement is presented for your town report.

Payments of Old Age Assistance to persons applying from your town amounted to \$2,767.50 during the year January 1, 1942 to December 31, 1942.

The number of recipients in December, 1942 was 14.

The increase in the cost of food, fuel, rents and services constitutes a serious problem to persons dependent on small fixed allowances and has been the cause of much concern to the Old Age Assistance Department which is responsible for the welfare of about 5,400 aged individuals now receiving assistance. In addition, there are some 500 eligible applicants who cannot yet be helped because sufficient state funds are not available.

The resources of this department and its ability to make grants are determined by the state appropriation which is matched by federal funds. The Legislature, conscious of the needs of the aged citizens of the state, has frequently given favorable consideration to this problem. The expenses of administering the program have been the lowest of any state in the Union on a comparable basis.

The advice and council of local officials and interested persons have been very valuable and are gratefully acknowledged.

Very sincerely yours,

W. ARTHUR SIMPSON

Director

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Directors and Citizens of the Town of Warren:

I herewith present my eighth annual report.

There are forty-four full-time teachers in Windsor Northwest District: Bethel Town, 7; Bethel Village, 9; Granville, 2; Hancock, 3; Pittsfield, 2; Rochester Town, 5;

Rochester Village, 7; Sherburne, 2; Stockbridge, 3; Warren, 4. The East Granville school is supervised by the superintendent from Randolph.

Warren teachers are: Mrs. Arlene Senor, Village Grammar; Ervlla Abbott, Village Primary; Helen Comes, Down River; Marjorie Brooks, East Warren. Despite a serious shortage we were able to secure qualified teachers for our schools this year. Next year the shortage is expected to be more acute. It has been necesasry for the State Department to issue over one hundred War Time Certificates this year. It seems quite possible that more will have to be issued the coming year. I have found it necessary to use seven this year. However, after diligent search, I was fortunate in securing highly competent former teachers for all vacancies.

The enrollment in the schools at the beginning of the fall term was as follows:

Grades	1	2	3	4	5	6	7	8	Total
Village Primary	6	8	5	6					25
Village Grammar					8	4	7	8	27
East Warren	0	1	2	0	1	2	2	1	9
Down River	2	1	0	0	1	2	1	2	9
Totals	8	10	7	6	10	8	10	11	70

Our pupil enrollment was quite normal in September. However, decreaced enrollments are general throughout Vermont. We dropped over 5000 pupils last year and the downward trend is continuing this year. Local school districts will receive much less state aid unless the law, Section 4338 of the Public Laws, is changed to increase the \$15 per equated pupil rate.

Transportation of school pupils has been restricted by order of Joseph B. Eastman, O. D. T. Director, the aim being to conserve equipment.

It is becoming increasingly difficult to get supplies for our schools. While our people as a whole have been called very wasteful, we in this state have been given the credit of being thrifty. Thrift is a virtue that all now must practice. There is a real need for teaching and practicing thrift in our school rooms. Too often children are not sensitive to waste because to them books, supplies and equipment in general just belong to the town and so why worry.

Various commendable school activities have been carried on during the year. Among these are: scrap collection drive, buying of War Saving Stamps, organization of American Junior Red Cross, hot lunch projects. The Penny Milk government proposition looked pretty good but it was too difficult to put into operation and was dropped generally, I believe, in various interested towns. It is expected our teachers and schools will take a leading part in the national food rationing program coming in February.

May I again express my appreciation of the helpful co-operation, so essential in our work with the children, shown by the teachers, school directors, parents and other citizens of Warren.

Respectfully submitted,

SIDNEY C. HARDING, Supt.

Yours truly,

DAVID V. ANDERSON

Auditor of Accounts

January 25, 1943

Mr. L. H. Ford, Clerk
Town of Warren
Vermont

Dear Mr. Ford:

Warren having accomplished an outstanding job in the collection of salvage for the contest period July 1 to December 31, 1942, by exceeding the 110 pounds per capita required, is hereby awarded the right to inscribe "M" for Merit on the annual report for the year 1942. In testimony thereof, this certificate is presented.

WM. H. WILLS

Governor

VERMONT SALVAGE COMMITTEE

A. VAIL ALLEN

Chairman

J. O. BAXENDALE

Executive Secretary

To the People of Warren:

During the past year the people of the State of Vermont have purchased \$18,000,000 worth of War Savings Bonds. This represents an investment of approximately \$50 for every man, woman and child in the state.

Vermonters were able to buy \$18,000,000 worth of bonds last year mostly because 410 industrial and mercantile establishments throughout the state have provided a means whereby their employees can buy bonds on an installment basis. More than 38,000 men and women are included in the plan. Every week or every month these employers deduct from the employee's wages the amount that the employee has designated and the money is invested in War Savings Bonds.

Good though this record may appear it is not good enough. As Vermonters we did not meet the quota assigned to us, a quota based on known earned income. There are thousands of people throughout the State of Vermont **who have not yet bought a bond**, people who can and should buy them.

When you read this town report and realize that you manage your own town affairs because this is a free country just ask yourself, Am I putting enough into this war effort to insure a continuance of freedom?" If you are not, then make plans to start buying stamps and bonds at once. Make a regular, definite commitment to buy systematically. Only in that way can you derive the full advantage of having such an investment offered you. Only in this way can our Government derive the benefit of your money NOW.

Our President says, "We fight to retain a great past . . . we fight to gain a greater future." Do your part by buying bonds.

FRED C. MARTIN

State Administrator

War Savings Staff

Total amount Bonds sold in Warren in 1942 \$7,218.75.

PAY YOUR TAXES — BEAT THE AXIS!

Unpaid taxes mean additional tax burdens on the state, on the town and on your neighbors who pay their taxes when they are due.

That is why a taxpayer who is financially able to pay his or her taxes and fails to do so is a pretty poor kind of citizen—especially in times like these.

WARNING MARCH MEETING 1943

MRS. LILLIAN LONG, Overseer

OLD AGE ASSISTANCE DEPARTMENT,

For the information of your taxpayers and because the program touches every community and a great number of its people, the customary annual statement is presented for inclusion in your town report.

The Vermont Old Age Assistance program is in its ninth year of activity. Nearly 11,000 Vermonters have received the benefit of its services and payments. It has proven a dignified and reliable method of relieving uncertainty, distress and need in old age.

To date, about 8½ million dollars has been expended in the state. The number currently receiving assistance is 5,400 persons. This is about 15 per cent of the estimated number of persons over sixty-five years of age. Since the beginning of the program, the entire expense of administration has been 4.2 per cent. The Social Security Board, Washington, D. C., has figures to show that, on a comparable basis, no other state has a better record for efficiency and economy.

Payments of old age assistance to persons applying from your town amounted to \$2,786.50 during the year January 1, 1943, to December 31, 1943.

The number of recipients in December, 1943, was 14.

The increase in the cost of food, fuel, rents and services constitute a serious problem to persons dependent on small fixed allowances and has been the cause of much concern to the Old Age Assistance Department.

The advice and council of local officials and interested persons has been very valuable, and is gratefully acknowledged by the director, his associates and field staff.

Very sincerely yours,

W. ARTHUR SIMPSON, Director

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Directors and Citizens of the Town of Warren:

I herewith present my ninth annual report.

The enrollment in the schools at the beginning of the fall term was as follows:

School	Grades								Total
	1	2	3	4	5	6	7	8	
Village Primary	10	7	3	6					26
Village Grammar					7	4	6	6	23
Down River	0	1	3	1	0	1	1	1	8
East Warren	4	1	1	1	0	1	2	1	11
Totals	14	9	7	8	7	6	9	8	68

There are eighteen students attending secondary schools: Waitsfield High, twelve; Montpelier High, three; Waterbury High, two; Burlington High, one.

Warren teachers are: Village Primary, Marjorie Brooks Maxwell; Village Grammar, Lepha Long Gove; Down River, Margaret LaGoy; East Warren, Effie LaMorder.

There is a serious shortage of teachers and the primary contributing factor is economic. Inexperienced stenographers and women workers in war industry are in many instances making double the pay of well-trained teachers. We appreciate the faithfulness of our teachers in their present positions during this emergency. We are also grateful to them for giving their services in relation to the rationing program, salvage drives, airplane observation and other indispensable war-time activities.

We have as yet experienced no serious lack of school room supplies and text books, but it is becoming increasingly difficult to get prompt service on orders.

As text books become old and outmoded they are replaced with new up-to-date books. New arithmetics, geographies and spelling books have been purchased recently.

The P. T. A. and entire community at East Warren have been decidedly active in helpful school work this year.

Parents take turns in providing hot lunches for the children. One supper brought in \$33.25 and a rummage sale \$31.00.

Money raised has been spent for various purposes among which are: Current events papers, drinking cups, sugar and ketchup for hot lunches, kerosene for oilstove, war bond, five dollars given to War Chest and, most important of all, necessary dental work done for all pupils. Plans are being made for a medical checkup to take place during the spring vacation.

Village School Activities

Warren, Vt., Jan. 11, 1944

Dear Mr. Harding:

Here are some of the ways we earned and spent money. We made approximately thirty dollars at the Hallowe'en bazaar which was held at the Town hall. We also made quite a little money from selling popcorn at the moving pictures. We spent some of it for getting things to put in the medicine cabinet, tools for the art work, five dollars toward the War Chest, one hundred books for three dollars, and we are going to take the National Geographic. We have around twenty dollars left now. Our school is collecting paper for the war.

Your friend,

Marcella Brooks,

Grade 7, Age 13

Over a period of years the attitude of the pupils toward school and school work has shown a steady improvement. More are interested in continuing their schooling after finishing the grades. This is a wholesome and natural reaction to better teaching and to a keener interest in the education of their children by their parents.

Again I wish to express my sincere appreciation of the very helpful cooperation of school directors, parents, teachers and children.

Respectfully submitted,

SIDNEY C. HARDING,

Superintendent of Schools

To the People of Vermont:

During 1944 the War Finance Committee for Vermont conducted the Fourth, Fifth and Sixth War Loan Campaigns, all eminently successful;—successful not alone in the amount of money raised but successful in that it enabled more than one hundred thousand Vermonters to save and at the same time furnish their government with funds to conduct the war.

In these three campaigns Vermonters purchased \$112,600,000 worth of Bonds of all kinds; \$20,450,000 in Series E Bonds and \$8,626,000 in Series F and G Bonds, and the remainder in the so-called Treasury issues.

To sell this large amount of Bonds required a good organization and a cooperative response on the part of the people. We had both.

Vermont's sales army in each of the three campaigns consisted of about four thousand men and women. People who gave of their time and effort to make these campaigns a success;—to them, as well as to the people of Vermont I am very grateful.

As we assemble in town meeting this year with the realization that the management of our political and civic affairs is in our own hands, let us turn our thoughts to those who are fighting to preserve these rights and liberties. Let us resolve that there may be no lessening in our efforts to back them to the limit that the war may be shortened and that their return to their homes may be hastened.

FRED C. MARTIN
Executive Manager
War Finance Committee.

OLD AGE ASSISTANCE DEPARTMENT
120 State Street
Montpelier, Vermont

For the information of your taxpayers the customary annual statement is presented for your town report.

Payments of old age assistance to persons applying from your town amounted to \$3,286.50 during the year January 1, 1944, to December 31, 1944.

The number of recipients in December, 1944 was 15.

The resources of this department and its ability to make payments are determined by the state appropriation which is matched by federal funds. During recent months it has not been possible to grant assistance or to increase all who were found eligible after investigation. The cost of living has increased so much that about every case needs to be increased that is not now getting the maximum. The cooperation of Overseers in extending temporary aid and supplementary medical services has been very helpful.

The administrative expenses of this department have risen slightly during the biennial period but the administrative review of the Social Security Board emphasizes that the total administrative cost per case per month is among the lowest in the country.

The advice and counsel of local officials and interested people are gratefully acknowledged by this department and its field staff.

Very sincerely yours,

WILLIAM L. SEWARD,
 Director.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of the Town of Warren:

I herewith present my tenth annual report:

The enrollment in our schools during the fall term was as follows:

Grades	1	2	3	4	5	6	7	8	Total
East	1	2	0	1	1	1	1	1	8
Village Primary	10	7	8	3					28
Village Grammar					7	5	8	7	27
	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>	
	11	9	8	4	8	6	9	8	63

Our teachers are: East, Ruth Varney Greenslit; Village

Primary, Marjorie Brooks Maxwell; Village Grammar, Alice Backus DeLong.

On account of the decreased enrollment at the River school it was closed during the fall term. State Aid will continue to be received during the emergency. Three other schools in this district were closed this year, one in Rochester Village, one in Bethel Town and one in Pittsfield.

Our new reading system, "The Curriculum Foundation" is working out very well. The new spelling books, very slow in coming are now all here.

The teacher shortage which I mentioned in my last year's report is now more serious than ever and seems likely to continue for some time to come. We are indeed grateful that our own local teachers are willing to carry on at this critical time. It would be well-nigh impossible to replace them.

This year also for the first time in my experience, there has been difficulty in getting regular text-books. This has been due in part to lack of help, but primarily to the existing paper shortage. However, this has not as yet seriously affected our school work. The usual extra-curricular activities are being carried on and the schools have cooperated in the war effort.

The far-reaching importance of the work of the teacher was never so fully realized as in these crucial times. There is an old saying which runs as follows: "As is the teacher, so is the school." Now many are saying that as is the teacher so will be the community, the state, the nation and the world.

The pulpit, the press and the radio are powerful agencies in developing our future citizens, but there are many reasons why the weight of responsibility rests upon the teachers:

- "1. They are educated.
2. They are trained specifically to develop the physical, mental and moral character of those who are to determine the future of the world.
3. They meet nearly every child.
4. They influence them at an impressionable age.
5. They have them five hours each day, five days in a week, thirty or forty weeks in a year, for from eight to twelve years.
6. They can insist on attention.

"Formerly we thought of our teachers as a great agency for making good fathers and mothers, good neighbors and efficient citizens of their home town. More recently we have felt the need of training the pupils for democracy, to control intelligently the destinies of our nation. But until the last three years it was only the exceptional school that gave much thought to preparing them to control the destinies of the world. Few realized that the statesmen of the future are now in school. It is probably not an exaggeration to say that this world-mindedness is growing with every passing week.

"The ultimate goal . . . is a world in which all nations are working together intelligently, wisely and harmoniously toward higher and higher physical, intellectual and moral standards, with equal opportunity for all."

The above was quoted from a recent N.E.A. release.

Realizing the almost super-human burden placed on the schools, it is little wonder that local and particularly state school officials are striving earnestly to make it possible for our teachers to receive a salary adequate enough, not only to hold our present good teachers but to act as an inducement to our more promising young people to prepare for the profession.

Again I wish to express my sincere appreciation of the very helpful cooperation of school directors, parents, teachers and children.

Respectfully submitted,

S. C. HARDING, Supt.

Please Bring This Book to Town Meeting

Tuesday, March 5, 1946

E. W. THURBER, Printer
Williamstown, Vermont

To the People of Vermont:

With the successful completion of the Victory Loan Campaign Vermont and the nation has concluded the last of the great war financing jobs. These campaigns in Vermont have been successful because a fine campaign organization has been able to reach a generous and responsive public anxious to do everything in its power to aid our Government in its war effort.

During the eight campaigns Vermonters have subscribed a little more than three hundred million dollars in War Savings Bonds, and with the thriftiness common to Vermonters, a great part of the Bonds are still in the hands of the purchasers. As a matter of fact, the redemption rate for Bonds in Vermont is among the lowest in the entire nation. This is as it should be. Vermont has a reputation to maintain.

This method of saving through the purchase of Savings Bonds has proved so popular that the Treasury Department will continue the sale of Series E, F and G Bonds through banks and post offices, through the Payroll Savings Plan and through a School Savings Plan.

As we assure you of our gratitude for your response in past campaigns, we also ask that you continue to buy and hold United States Savings Bonds through our peace-time program.

THE WAR FINANCE COMMITTEE FOR VERMONT

D. ARNOLD SKELLY, Executive Manager.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of the Town of Warren:

The enrollment in our schools at the beginning of the fall term was as follows:

School	Grades							Total
East Warren	2	2	1	1	0	1	0	2—9
Village Primary	9	9	10	6				—34
Village Grammar					4	9	5	5—23
	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>
	11	11	11	7	4	10	5	7 66

The present enrollment at the East Warren school is six pupils. It is not economically sound business to keep a school open for so few pupils. One dislikes to suggest transportation to the Village school from a neighborhood that has so loyally supported its school, but I believe the time has come when consolidation should be considered. It is quite likely that eventually three rooms will be needed in the Village anyway since the primary room is now definitely overcrowded.

For some time repairs have necessarily been few. Now, however, they should be given attention, especially at the Village school. A new ceiling is needed in the grammar room and the windows are very loose and noisy and allow so much cold air to seep into the room that proper heating is a problem. New desks are needed. These will be available from the manufacturers soon. The interior of both rooms should be redecorated. The toilets are inadequate for so many pupils.

We have experienced considerable difficulty in getting text books this year. Some ordered in early September have not yet arrived. Supplies came along very well.

In view of the continued critical shortage of teachers we were extremely fortunate in securing such able instructors. They are: Lepha Gove, East Warren; Evelyn McCuin, Village Primary; Alice DeLong, Village Grammar.

By almost superhuman efforts the greatest war in world history has just been won. We must now turn our unfaltering energies to the critical business of keeping the peace. Teachers throughout the world hold a key position in this most important challenge to our civilization. To meet, successfully, this vital challenge they need and must have all the assistance we can give them.

Again I wish to express my sincere appreciation of the very helpful cooperation of school directors, parents, teachers and children.

Respectfully submitted,

SIDNEY C. HARDING.

Jan. 11, 1946.

To the Voters of the Town of Warren:

We as School Directors of the Town of Warren, understand that our District Superintendent, Mr. Harding, recommends closing of the Corner school, so called, and to transport said pupils to the Village schools, which he has already admitted are congested. Now in doing this we would discard the best school building in the Town of Warren. One of his reasons for closing this school is: Scarcity of teachers. He still suggests another school room, and to maintain another school room at the village, where would we save on the shortage of teachers?

Now what we Directors would like to know is: Do the people of the Town want to lay out the money they have on the Corner school building in the past two years, and then discard the building? With the shortage of housing there is, in this country today it might be possible for some of the people to work back this way, and fill up some of our empty houses, and thus increase our scholarship.

Signed,

ORREN LOVETT,
ROBERT GOVE,
HAROLD DEFREEST,

School Directors

VERMONT DEPARTMENT OF SOCIAL WELFARE

Since payments by the State have a considerable part in lowering local tax rates the following information is furnished as a public service for inclusion in your Town Report.

Payment to persons found in or applying from Warren, calendar year ending December 31, 1947:

For Old Age Assistance	\$ 3,799.29
Blind Assistance	\$
Aid to Dependent Children	\$ 168.00
Adult Crippled Aid	\$
Committed Children	\$

Total \$ 3,967.29

The newly established Department of Social Welfare administers programs formerly administered by the Department of Public Welfare and the Old Age Assistance Commission. It is responsible for the determination of eligibility and

continuation of eligibility and within the limitations of money available, for the payment of financial assistance to approximately 9,000 individuals in various categories from youth to old age. Increase in the cost of living, unemployment, family insecurity, divorce, sickness, lack of housing, inadequate social security benefits, exhaustion of savings and a longer life span are factors in applications for aid and the amount of need.

This agency endeavors to function with kindly consideration of human needs and the practical and efficient expenditure of public funds. We appreciate the information and advice of so many who have cooperated with us in the past twelve years.

Very sincerely yours,
W. Arthur Simpson,
Commissioner.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Directors and Citizens of the Town of Warren, Vermont:

I hereby present to you my first annual report as your new Superintendent of Schools for the Windsor Northwest District.

This District remains the same in size as in previous years and is composed of the Towns of Bethel, Stockbridge, Pittsfield, Sherburne, Rochester, Hancock, Granville and Warren.

There are now 40 full time and two part time teachers in this District.

The teachers for the Town of Warren are: East Warren, Mr. Ray I. Pestle; (Resigned at Thanksgiving time, due to poor health). Mrs. Nellie Girard (Started Dec. 8, 1947). Village Primary, Miss Persis G. Andrews; Village Grammar, Mrs. Alice B. DeLong.

The enrollment at the beginning of the fall was as follows:

Grades	1	2	3	4	5	6	7	8	Total
East Warren	5	2	2	2	1	1	2	0	15
Village Primary	12	6	10	6					34
Village Grammar					8	4	9	2	23
Total	17	8	12	8	9	5	11	2	72

I am very sorry to have to report the resignation of Ray I. Pestle from the East Warren School due to ill health. Mr. Pestle was well liked by all who knew him and I am sure that I express the wish for all when I say we all wish him a speedy return to good health.

We were very fortunate in these times when there is such a shortage of teachers to have Mrs. Nellie Girard take the teaching position in East Warren. She started there on the

eighth of December and I know she will be successful because Mrs. Girard has had many years of teaching experience.

We also have a new teacher this year in the Village Primary. She is Miss Persis G. Andrews and has had a number of years of teaching experience. She is well prepared for teaching the Primary grades. This is very fortunate for the Town of Warren this year because there are 12 in the first grade to begin with.

Mrs. Alice B. DeLong has been teaching for three or more years and I know that every one is familiar with her work and the keen interest she has shown in Visual Education as well as craft work.

Warren can well feel proud of the work that is being accomplished by the teachers and I ask for your continued cooperation and support for the future.

Some changes have been necessary this year within the system. We started the school year with 34 in the Village Primary room, 12 of these being beginners, and this room was crowded. More seemed to move to the town until we had 39 and then we were very much crowded. I felt that it was necessary to try and equalize the teaching load and also relieve the crowded condition.

About the first of December I moved grade four up into the Grammer School room so that Miss Andrews had the first three grades and Mrs. DeLong had the upper five grades. This now makes the teaching load nearly even and better results will be obtained by both teachers. This will help the children accomplish better results and they will be better prepared for higher education.

The Town of Warren must begin to think about the Village School building because many repairs will be necessary to meet the State requirements in the near future and the problems that will be before you will be to decide if it will be cheaper to build new or keep repairing the old building after and still have an old building after repairs have been made. There are many things to think about such as drinking water, proper lighting, toilet facilities, heating, ventilating, etc.

When one realizes that the Town of Warren has 17 in the first grade, you must realize that this presents the problem of more school supplies and large classes for the next seven years.

The addition of some new desks in the Village Grammer School has helped to improve the appearance of the room and brings great pride to the upper grades. There are other things that are needed such as a table large enough for a group to

work around it, chairs and more desks for the future because many of the old desks that are in the room now are nearly ready to fall apart. They have served the Town well and new ones should replace them.

A wall dispenser and sanitary drinking cups have been placed in the Village School and the same is on order for the East Warren School. This will permit us to dispose of the old cups and glasses and will help to improve the sanitary conditions.

I hope that we can plan to have the full cooperation from the community when I say that some improvement in sanitary conditions will be necessary in the spring of the year regarding the back part of the Village School. I have received complaints from both teachers and school children regarding this condition. I feel sure that cooperation is the answer to this problem and I expect that we will receive it when the time comes.

The Massachusetts Vision Test for eye sight and the Audiometer Test for hearing have been given in the entire District and the results forwarded to the State Department of Education. They will be checked by a doctor and the results returned to the Superintendent of Schools and the District Nurse. We hope to be able to have a clinic in the near future so as to try and correct some of the failures or at least be able to advise the parents what to do.

Some of the school supplies are still hard to get but we are looking to the future with the hope that it will not be so difficult. I plan to have a very careful check of all supplies on hand made and will be able to place our school order early so that our supplies for next year should be here on time. The supply problem for Warren schools will be greater than in past years due to the large 1st grade that probably will be with us for the next seven years as well as other fairly large grades.

The moving picture machine that is the property of the school and used for visual education has also brought enjoyment to many of the citizens in the Town where the moving pictures have been shown once or more a week. I believe that there are many who have never realized the extra work and worry about getting the films, etc., so as to show them that Mrs. DeLong has had and I think she should be congratulated upon her willingness to assume this added responsibility that extra entertainment might be had in the Town.

I want to express in this report my appreciation to Mr. Harding who has served you as Superintendent during the past several years, for his kind suggestions and helpful infor-

mation regarding the District. I wish for him and his family a long time to enjoy retirement.

I also want to express my appreciations for the fine co-operation that has been shown by the School Directors, Teachers and school children and for the cordial way that I have been received by the Citizens of the Town. I am looking forward to this continued fine cooperation in the future.

Respectfully submitted,
N. RICHARD BUTLER,
Supt. of Schools.

REPORT OF HEALTH OFFICER

During the past year I have had reported to me the following: Eleven cases of whooping cough; one case of chickenpox.

I have inspected the public buildings as to the sanitary conditions and find the toilets in our Village Schoolhouse below the standard required by law. I have had several complaints of rubbish being dumped near the highways. Please be advised there is a State law preventing the dumping of rubbish.

I have had some co-operation in persons reporting communicable diseases, but some do not understand the law. The following is from our Public Health Law:

Sec. 5302 Penalty:

The head of a family or a physician who fails to give reasonable notice to the health officer of the existence of such disease shall be fined not more than fifty (50) dollars nor less than ten (10) dollars.

Better cooperation will make a healthy community for all its citizens.

VAUN B. DREW,
Health Officer.
